COMPUTER SYSTEMS DIVISION

**December 17, 2003**

Toshiba America Information Systems, Inc (TAIS) is pleased to provide the following information detailing Toshiba Desktop and Portable product accessibility features in support of Section 508 compliance. This information applies to all Toshiba Portable Computer systems.

## Section 1194.26 Desktop and Portable Computers

<b>Criteria</b>	<b>Supporting Features</b>	<b>Remarks and Explanations</b>
(a.) All mechanically operated controls and keys shall comply with Section 1194.23 (k) (1) through (4)	Supports	All controls are tactilely discernible without operating the controls. The keyboard has landmark ridges on both J and F keys. The keyboard and controls are operable with one hand and meet all force requirements. Key repeat is supported through Windows Operating System. Toggle keys are visually discernible and may be made audibly discernible through Windows Accessibility Options.
(b.) If a product utilizes touch screens or touch operated controls, an input method shall be provided that complies with Section 1194.23 (k) (1) through (4)	Supports	The Accupoint pointing device is visually discernible and operates with one hand under force requirements stipulated. A mouse can be used as an alternative input device and the Windows operating system supports the use of arrow keys for input and pointing.
(c.) When biometric forms of user identification or control are used, an alternative form of identification or activation, which does not require the user to possess particular biological characteristics, shall also be provided.	Supports	Toshiba computer systems do not require the use of biometric identification devices.
(d.) Where provided, at least one of each type of expansion slots, ports and connectors shall comply with publicly available industry standards.	Supports	All slots, ports and connectors provided comply with publicly available industry standards.
