What is eProcurement?

eProcurement is a third-party system which streamlines an organization's purchasing processes through the Internet, thereby eliminating many traditionally paper-based labor-intensive time consuming tasks.

What are the benefits?

- Consolidate purchases, reporting and forecasting through a single interface.
- Minimize errors by automating the approval process.
- Decrease transactional costs.
- Decrease order fulfillment costs by consolidating purchase orders.
- Improve spend control by enforcing spending limits and privileges.
- Improve contract compliance.

¹ Monday – Friday. Please allow for a 24-hour response time.
