Leverage your 2009 budget today:

- Make needed purchases today with no payments until 2009
- Utilize the benefits of asset ownership today while making payments in the future

Benefits of a monthly payment plan:

- Convenience — simpler, more flexible documentation
- Avoid obsolescence — buying promotes keeping equipment far beyond its useful life; at the end of a lease, you can upgrade to new equipment as you return the outdated equipment
- Asset management — our programs allow you to actively manage the lifecycles of your IT assets
- Capital conservation — keep cash on hand to run your business for inventory, payroll, emergencies, etc.
- Tax benefits — payments may be made from pre-tax rather than after-tax earnings
