# DON'T JUST HOPE FOR ACCESSORY COMPATIBILITY. EXPECT EXCEPTIONAL ABILITY.

Sometimes a computer needs some fine tuning: a little boost in memory, more battery run time, or extra protection for traveling. That's when you start thinking about accessories and which brand to select.

Fortunately, we think about accessories all the time. You might say we're obsessed with them—with improving their function, enhancing user comfort and increasing safety. That takes a lot of thought and plenty of action. The result is a complete line of high-performance accessories tested for ultimate compatibility with your ThinkPad® and ThinkCentre® computers.

ThinkVision® Projector

## A PERFECT FIT ISN'T AN OPTION.

A key requirement for all ThinkPad and ThinkCentre accessories is compatibility. They must perform in sync with the computers—in perfect harmony. That requires hours of testing in all kinds of conditions and work situations. They're also developed to be consistent, in both look and feel, with the systems they enhance.

A perfect fit is just one key detail that goes into making ThinkPlus™ accessories the right complement to your ThinkPad and ThinkCentre computers. What else does it take?

**Industry-leading Design.** From award-winning industrial designers.

**Testing.** Under scientific eyes and in users' hands.

**Safety.** For users and the environment.

**Latest Advances.** With ThinkVantage™ Technologies.

**Service and Support.** Virtually anywhere and any way you want it.

The net effect can be quite amazing. Read on and learn how it's done.

# THINKVANTAGE DESIGN: IDEAS YOU NEVER THOUGHT POSSIBLE

Form plus function plus user feedback: that's ThinkVantage Design. It's a formula that creates something more than synergy. It's more about design that energizes users. ThinkVantage Design focuses on the elements people are most directly involved with, for greater comfort, productivity—even lower costs. It starts with years of intense research into what users need, what they like and even what frustrates them. Users then test and retest and offer feedback and suggestions.

ScrollPoint Pro Optical Mouse  
USB and PS2

## FOR PEOPLE WHO WANT THE BIG PICTURE AND APPRECIATE THE FINE DETAILS

ThinkPlus Accessories are built on a foundation of classic design principles, simple forms and quality materials. ThinkVision® monitors offer a lightweight beveled design, with select models that can be adjusted to fit your viewing preference. Lift, tilt, swivel or rotate for the ultimate in viewing comfort. The ScrollPoint® Pro Optical Mouse USB and PS2 lets Internet surfers<sup>1</sup> enjoy greater finger comfort with a contoured shape, sure-grip rubberized sides and pressure-sensitive scrolling in any direction.

Enhanced Performance  
Wireless Keyboard and Mouse

A unique metal plate in the legendary keyboard adds substance to reduce flex, slippage and even a bouncing keyboard. The keys themselves pack more innovations into every cubic inch than you'd ever dream possible.

### Take a single key and see all that goes into it.

- Rounded key tops, based on the popular Selectric shape
- Spherical indentations, longer than wide, to fit fingertip shape
- Slightly rough matte finish to aid finger positioning
- Stroking surface width of 12mm for better fit
- Smooth key movement, preferred by users
- Kinesthetic feedback with short duration; low click sound
- Lighter force, preferred by users
- Flat keyboard profile, preferred by users
- Tested to meet ISO standards and meet or exceed user satisfaction levels.

# HARD TESTING AND HIGH STANDARDS

An accessory may look great. It might feel perfect. But it must also perform, day in and day out. From 9 to 5 and back again. That requires testing throughout the design process. Rigorous testing, repetitive and even abusive testing. So users can be confident their accessories will survive the trials of the business world. The fact is, only a product that successfully passes every tough test we throw at it can join the ThinkPlus Accessories family.

The types of testing to which these accessories are subjected could fill a book. The short list could fill this page:

Acoustics	Mechanical	Shock
Architecture Verification	MET	Signal Quality Analysis
Early Life Performance	Operating System	System
Electrical	Packaging	Temperature
Electromagnetic Compatibility	Performance Analysis	Thermal Analysis
Energy Savings	Power Management	Usability
Environmental Stress	Product Safety	Vibration
Homologation	Related Products	And more
Humidity		

## IT WORKS, BUT DOES IT WORK WELL WITH OTHERS?

You need to be confident that any accessory you purchase works well with your ThinkPad and ThinkCentre computers. That's one of the most critical tests these accessories go through. The goal is to offer full compatibility with the Think® family of offerings.

ThinkPad internal optical and hard drive options are designed, tested, and supported for fit and function in ThinkPad media bays. ThinkPad optical and hard drive options go through additional screening-quality testing to offer better quality than the generic versions of these drives. Compatibility tests are performed for memory cards while the hardware operates under various hardware and software configurations.

The outcome? Peace of mind that your systems are not only enhanced by these accessories, but will actually perform when put to the test.

# SAFETY FOR YOU AND YOUR WORLD

## MADE TO PERFORM SAFELY

Some companies may test for safety using nominal conditions. ThinkPlus accessories go through worst-case scenarios. Power adapters and batteries go through worst-case power dissipation. That means more robust performance, longer life and increased field reliability due to the lower temperatures at the worst-case loads. Only ThinkPlus Accessories offers branded power accessories.

## MADE TO BE SAFER FOR THE ENVIRONMENT

ThinkPlus is part of a corporate commitment to environmental leadership. The Lenovo global environmental management system is key to the company's vigilant protection of the environment across all operations worldwide.

ThinkPlus Accessories are certified throughout the world: In the United States, they hold FCC certification; in Europe, the Middle East and Asia, CE certification; In Taiwan, BSMI certification; In Korea, MIC certification, in Japan, VCCI certification; and C-Tick certification in Australia and New Zealand. By the end of 2005, ThinkPlus Accessories will be in full compliance with RoHS.

# THINKVANTAGE TECHNOLOGIES

## THINKVANTAGE TECHNOLOGIES: THE FINE ART OF STATE-OF-THE-ART

ThinkVantage Technologies were developed to help make personal systems less dependent on IT staff for basic tasks like deployment, backup, and security. That helps free up users and IT staff to focus on the business at hand, such as making a company more successful. You'll find these exclusive innovations in many accessories, too.

The new Preferred Pro USB Keyboard with Fingerprint Reader offers the convenience of accessing confidential files with the swipe of a finger. With fingerprint-reader software and Client Security Software for the Embedded Security Subsystem, users can create one of the most secure logon processes available<sup>1</sup>. Push the Access button and connect to a host of information and tools to help you set up, understand, maintain, and even enhance your ThinkPad notebook or ThinkCentre desktop.

The Portable 40GB USB 2.0<sup>2</sup> Hard Drive with Rescue and Recovery™ provides a complete image recovery solution. Should a software or hardware failure occur, this exclusive software helps protect against data loss by returning to a previously saved image.

# SERVICE AND SUPPORT THAT'S ALWAYS ON.

The award-winning Service and Support you count on for ThinkPad notebooks and ThinkCentre desktops applies to ThinkPlus Accessories as well.

**On-the-system.** Tools such as the Blue button on ThinkCentre keyboards and Rescue and Recovery on portable hard drives provide expertise at your fingertips: support information, self diagnosis, automated solutions and data protection and restoration.

**On-the-Web.** Extensive and in-depth online<sup>1</sup> eSupport offers multiple file download capabilities and automated solutions, 24/7\*.

**On-the-phone.** Trust a leader in 24/7\* on-the-phone service. Chances are good, some might say great, that your problem can be solved in just one call. Call routing, metrics and continuous feedback make these HelpCenter® operations more effective and help minimize your wait time<sup>3</sup>.

**On-the-way.** You'll find a team of pros with a complete range of services, coupled with a broad portfolio of skills and experience. A wide choice of flexible warranty and maintenance services is available in more than 160 countries<sup>4</sup>. Plus, an extensive Business Partner network can bring the global power of Lenovo support to any size business.
