

COMPANY & PERSONAL FAVORITES

Save Valuable Time by Setting Your Favorites

Company Favorites

Company Favorites are links posted to your company's extranet home page (the Account Center page), and these links are maintained by users with administrative rights. Log on to your extranet to:

- Share product preferences and standards across an organization.
- Post a list of preferred items.
- Save comparison charts so they may be shared and used again.
- Create bundles containing products that are typically purchased together.
- Post links to manufacturer websites and other key online destinations.

Personal Favorites

Personal Favorites are links posted to your personal view of your company's extranet home page (the Account Center page), and these links are set by an individual and available only to them. Use Personal Favorites in order to:

- Keep a list of frequently purchased and frequently referenced products.
- Save comparison charts to share and reuse.
- Create and save shopping carts for quick and easy repurchasing.
