

BlackBerry PlayBook OS 2.0 Performs.

Best in class communications. Powerful productivity. Performance powerhouse.

What's new and exciting about PlayBook™ OS 2.0

A proven performance powerhouse

PlayBook OS 2.0 builds on proven performance through powerful hardware and intuitive, easy to use gestures. BlackBerry® PlayBook™ packs a blazing fast dual core processor, two HD 1080p video cameras, and 1 GB of RAM for a high performance experience that is up to the task — whatever it may be.

The best of BlackBerry® comes built-in

The BlackBerry PlayBook now gives you the BlackBerry communications experience you love, built for a tablet. PlayBook OS 2.0 introduces built-in email that lets you create, edit and format messages, and built-in contacts app and social calendar that connect to your social networks to give you a complete profile of your contacts, including recent status updates. So, seize the moment and share it with the power of BlackBerry.

BlackBerry® Bridge™ Technology

New BlackBerry® Bridge™ features let your BlackBerry® smartphone act as a keyboard and mouse for your BlackBerry PlayBook, giving you wireless remote control of your tablet. Perfect for pausing a movie when your BlackBerry PlayBook is connected to your TV with an HDMI connection. Plus, if you're editing a document or browsing a webpage on your BlackBerry smartphone and want to see it on a larger display, BlackBerry Bridge lets you switch screens to view on your BlackBerry PlayBook. With BlackBerry Bridge, you can also use BlackBerry® Messenger on the BlackBerry PlayBook tablet so you can chat with your closest contacts while you browse the web or watch a movie.

BlackBerry PlayBook gets it done

The BlackBerry PlayBook tablet gives you access to your business applications and productivity tools so you can leave the bulky laptop behind. And with powerful QNX technology, trusted BlackBerry security and apps like Documents To Go® and Print To Go, your BlackBerry PlayBook will always be ready to work at a moment's notice.

BlackBerry App World™

The BlackBerry PlayBook has all your favorite apps and thousands more. Games like Angry Birds and Cut The Rope, social networking sites like Facebook, and even your favorite books from Kobo - the apps you want are here for you to discover in the BlackBerry AppWorld™ storefront.

An outstanding web experience

BlackBerry PlayBook puts the power of the real Internet at your fingertips with a blazing fast Webkit engine supporting HTML5 and Adobe® Flash® 11.1. Plus, the new browser reading view is designed to make websites easier to enjoy by eliminating page clutter at the touch of a button. What's left is a cleaner format that lets you read the web like you would an eBook.

Video chat

Because nothing beats face-to-face collaboration, the BlackBerry PlayBook is equipped with two HD video cameras and stereo speakers for video chatting between BlackBerry Playbook tablets. Plus with real multitasking, now you can be checking movie times online while you chat with a friend, or reviewing a presentation while you chat with a colleague.
