

# HP Access Control Printing Solutions

Transform imaging and printing practices for increased  
Security and efficiency

## Slash printing costs and keep data and devices secure

Your organization requires a convenient, cost-effective way to create a more secure and efficient imaging and printing environment. With HP Access Control, an HP JetAdvantage Security Solution, you can protect confidential information, enhance device security and management, while improving company-wide printing policies.

Now it's easier than ever with HP JetAdvantage Security Solutions to protect print jobs and devices, improve workflows, and monitor printing practices—all while reducing costs and supporting organization-wide security, compliance, and environmental initiatives. Designed to integrate easily with HP devices, you can select specific HP Access Control Printing Solutions to address your needs.

### Secure Authentication

Access Control Secure Authentication offers a variety of authentication options—including HP proximity card readers, PIC/PIN codes—to protect your devices and prevent unauthorized use.
