

INTEGRATE & SIMPLIFY TOTAL MOBILITY MANAGEMENT

THE SIMPLICITY OF INTEGRATION

CDW Canada is in the business of understanding vendor capabilities and leveraging best practices to meet the needs of your organization. CDW's Total Mobility Management combines the expertise, the partners and the solutions to enable IT to integrate, control and simplify all aspects of mobility management and empower your business through mobile innovation. We offer you a point of accountability with a dedicated account team that not only supports, but also understands, your integrated needs. CDW, together with our outstanding partners, provides the total solution—and specifically integrates each component to best meet the needs of your business and fulfil your strategic plan. Total Mobility Management solutions and services span each phase of implementation, from planning to support.

PLAN

Mobility is the new normal, a primary means of conducting business and a mobility plan goes well beyond devices. Simplifying the mobility maze starts with a clear mobile strategy as the foundation for your total mobility management solution. Your strategy must be unique and scalable—we know that and that is where we begin.

CDW offers Design & Consulting Services to help you plan & design your Mobility initiatives. These include:

- Mobility Strategy Development
- Design/Assessment of BYOD Programs
- Corporate Mobility Policies & Process Development
- Evaluation & Testing of Mobility Infrastructures

ENABLE

Streamline every aspect of ordering, deploying and managing mobile devices whether it's smartphones, laptops or tablets.

CDW makes implementing Mobility easy with Implementation Services for migrating or deploying new devices, policies & mobile applications. These include:

- Project Management
- Detailed Design & Setup
- Adoption Program Design & Execution
- Device Migration Services & Admin/User Training

PROTECT

Whether you operate a BYOD, corporate-owned or mixed environment, your programs require the optimal combination of flexible management based on device ownership and security risk level. CDW Canada is partnered with the industry leading and Gartner Magic Quadrant vendors to provide proven mobility management solutions to protect your business and it's data.

Full range of management services providing world-class monitoring, administration & management of Mobility requirements. These include:

- Hosting Infrastructure & Services in Canada
- Mobility Administration, Management & Reporting
- Device & Policy Management & Actioning

SUPPORT

Through a combination of a dedicated account team and a 24/7 Help Desk for both corporate-owned and BYOD programs, CDW provides various levels of support experts to deliver a solution that meets the needs of your IT department, your mobile users and your business. And your dedicated account team offers a single point of accountability and support.

CDW offers a variety of support services enabling enterprises to provide secure & efficient Mobility.

- End-User Mobility Help Desk
- On-site Mobility Resource
