

ENDPOINT PROTECTION PROMOTION

Get 3 years of protection for the price of 2

McAfee is proactive in delivering customers long-term total protection when it comes to endpoint security. Today's threat landscape requires more than just anti-virus protection. McAfee's Endpoint solutions enable you to completely protect your company's infrastructure, while at the same time reduce your operational cost and also maintain compliance. Take advantage of this promotion today to deploy McAfee endpoint solutions to your environment.

Total Protection: Buy 2, Get 3 Promotion

This promotion allows you to get 3 years for the price of 2 years. This is available to endpoint customers who upgrade to select endpoint solutions. New customers to McAfee can also participate in this promotion.

The selected McAfee Endpoint Solutions for this promotion include:

Protection Tier	McAfee Endpoint Protection Suite (EPS)	McAfee Endpoint Protection Advanced Suite (EPA)	McAfee Total Protection for Secure Business (TEB)	McAfee Total Protection for Endpoint Enterprise Edition (TPE)
Single management console	✓	✓	✓	✓
Desktop & server anti-malware	✓	✓	✓	✓
Desktop firewall		✓	✓	✓

Email server anti-virus & anti-spam	✓	✓	✓	✓
Host URL filtering		✓		✓
Device control	✓	✓	✓	✓
Full disk encryption			✓	✓
Email & web gateway anti-malware			✓	
Network access control (NAC)		✓		✓
Desktop policy auditing		✓		✓
Multi-platform anti-virus (Linux, Mac, Mobile)				✓

Top Reasons to Upgrade to ToPS for Endpoint:

- 1. Save money** – By consolidating your endpoint and data security efforts with products from one vendor, you can gain additional protection at a lower cost.
- 2. Deploy quickly and easily** – Integration with McAfee ePolicy Orchestrator® (ePO™), means you can turn on increased protection fast, with a single agent.
- 3. Protect all your devices from every angle** – Guard all your endpoints against network, system, email, web, and data threats.
- 4. Save time every day** – Manage all your protection easily from one centralized console. You can also connect to other McAfee and third-party products to improve visibility and speed reporting.
- 5. Leverage the leader** – McAfee has been an endpoint security leader in the Gartner Magic Quadrant since 2006 and was selected "Best Enterprise Security Solution" by *SC Magazine* for 2010.

Key Benefits

- **Stronger Security** – Advanced technologies protect desktops, laptops and servers against today's advanced threats. Proactive Artemis technology stops new malware immediately without signature updates and often leads all competitors for the best detection rates.
- **Lower Operational Cost** – ePolicy Orchestrator (ePO) along with product integration simplifies security management and can reduce the cost of managing IT security and compliance by more than 50%.
- **Protection Data** – Safeguard data and minimize compliance issues with transparent on-the-fly encryption and strong access control.
- **Simplified Compliance** – Total Protection for Endpoint helps identify, enforce and prove both internal and regulatory security compliance measures. McAfee is the only company to have an integrated management platform for both security and compliance management, including network access control, policy auditing and rogue system detection.
