Tools of the Trade

# THE POWER TO CONNECT WHENEVER AND WHEREVER.

The Voyager® PRO UC lets on-the-go business people access PC and mobile calls instantly with one headset.

Everywhere you look, businesses are embracing a modern approach to work, choosing tools that fit their employees' workstyles and how they move throughout the day. To meet their needs to be nimble, Plantronics has developed communication tools to help mobile professionals achieve more whenever and wherever.

The **Voyager PRO UC** gives your business a new weapon for always being available to your customers and sounding professional all along the way. Now, you can simply answer PC and mobile calls on a single headset with built-in Smart Sensor™ technology that knows when you can talk.

Read on to learn about ways to simplify your communications in different working scenarios. ▶▶▶

# Connecting to your business has never been easier.

Discover the tool that fits your various business scenarios.

Today, being successful in business means having the ability to solve day-to-day challenges wherever the day takes you. The Voyager PRO UC with intuitive Smart Sensor technology, that senses where your headset is, keeps you connected to your PC and mobile calls with a single headset so you never miss a beat at home, in the office and everywhere in between.

## Scenario 1

### No Matter Where You Are

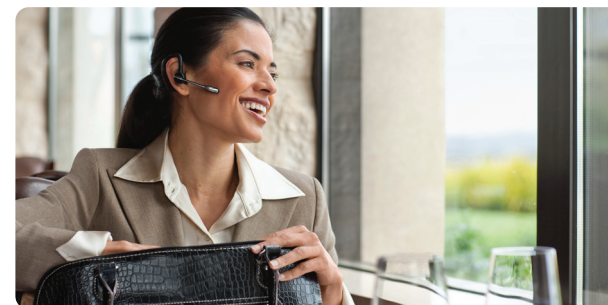

You're a mobile professional that needs to stay available, efficient and productive. The Voyager PRO UC allows you to take and make calls from your mobile phone or laptop. Never miss a call, conference or video chat as you move from office to home to customer site, all with top-notch audio.

## Scenario 2

### Working Together Virtually

Your business requires you to be responsive and professional when communicating with your employees, suppliers and clients. The Voyager PRO UC allows you to join a web or video conference with noise-free sound all while you're working on your laptop at your "other office".

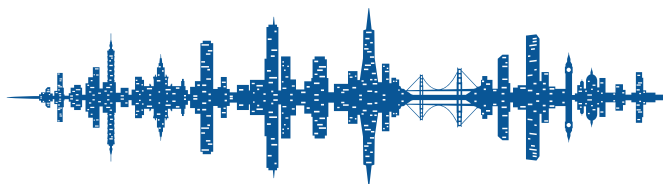

## Scenario 3

### Busy at the Office

It's an office day and you need to stay connected while running around the office. When connected to your PC and mobile phone, the Voyager PRO UC acts as your personal assistant — it knows when you are wearing the headset and it even talks to you. Now you can keep up with calls — hands-free — using a single headset.
