

RELIABLE MOBILITY BY LENOVO.

ORCHESTRATION BY CDW.

Mobility opportunities can be key to meeting your organization's goals and objectives. That's why we partner with industry leaders like Lenovo. Their secure, durable enterprise-grade devices give you a competitive advantage by empowering your employees for increased productivity and better customer experiences from anywhere. At CDW, our total mobility approach includes a comprehensive strategy followed by the services and expertise you need to keep your organization ahead of the competition. Together, we can build mobile solutions that boost productivity while providing the guidance and assistance you need to manage them.

LENOVO GETS MOBILITY

Professional Grade

Lenovo notebooks, tablets, 2-in-1s and smartphones are designed with business in mind and loaded with features that enhance productivity. Free up your IT staff's time and choose from a wide range of devices with popular features, all while maintaining visibility and control over how they're used.

Safe and Secure

Lenovo devices have built-in defense features designed to mitigate malicious attacks. Anti-theft, anti-virus and anti-spyware controls are included, as are firewalls, encryption and remote data deletion capabilities. Monitor your system's activity and health with ease by using the Lenovo Solution Center.

Durable and Reliable

Work-related travel puts wear and tear on your mobile devices. Lenovo mobile devices contain internal roll cages and pass eight military-grade tests for greater resiliency. Low-voltage processors help conserve energy, while specially designed navigation tools streamline connectivity.

CDW GETS LENOVO

CDW can build and implement a solution designed to fit your needs, so your organization can get the most out of mobility. With a wealth of Lenovo knowledge and years of experience, our experts can help you build mobility strategies and guide you through every phase of implementation and management. Together, CDW and Lenovo can help you assess, design and deploy a mobility solution to ensure your strategy grows with your organization.

BRINGING IT TOGETHER.

When it comes to putting a comprehensive mobility solution together, we're here to help. We offer a practical approach to acquiring and integrating your mobile solutions as well as a wide range of services designed to support you from assessment and design to deployment and management.

OUR MOBILITY STRATEGY

At CDW, our experts can help you develop a mobility strategy that includes Lenovo devices and management tools. We'll work with you to assess your needs and build a plan that embodies the following three pillars of mobility:

Devices

We simplify the purchase process. We configure, activate and deploy your organization's mobile devices, all from a single source that is partnered with an industry-leading provider.

Management & Security

With a full range of proven management tools and security resources, we keep your network running efficiently and securely.

Applications

Our end-to-end support helps you create strategies for mobile apps and virtualization, implement custom app stores and mobilize your workflow.

END-TO-END MOBILITY SOLUTIONS

To save you time, free up your resources and help your IT team focus on meeting your organization's goals and objectives, we offer a wide array of mobility services and support:

- Lifecycle planning
- Device purchases, customization and deployment
- Managed device subscriptions
- Cross-carrier activations
- Asset tagging and management
- Laser-etching
- Burn-in
- Help desk services
- Procurement portals
- Warranties
- Mobile accessories

SEE FOR YOURSELF

"I love the ability to manage our devices from anywhere. The hardware is also very well built. We haven't had any failures at all."

Taylor Bauman
Director of Technology
Pine Island School District

CASE STUDY: KEEPING TABS ON TEACHING

A Minnesota school district's technology was falling behind. We helped them catch up by upgrading them to a secure, cloud-based networking solution and Windows tablets from Lenovo. Not only did they give students and teachers more ways to collaborate from anywhere; they also allowed schools to go textbook-free and move toward a 100% paperless environment – a shift that's good for the environment and their budget.
