

# CISCO NETWORKS and CDW

**and NOW YOUR NETWORK  
KNOWS NO BOUNDS.**

CDW partners with Cisco® to ensure your organization is connected seamlessly and securely, using Cisco's Enterprise Networking technologies for your wired and wireless networks. Plus, CDW's deep expertise and experience with Cisco deployments mean we can deliver tailored solutions that optimize your network and bring your organization up to speed.

## WE GET NETWORKING

### Unified Access

Cisco's Enterprise Networking architecture allows organizations to connect seamlessly and securely across wired and wireless networks – anytime, anywhere, on any device. Cisco Prime Management technology provides you with unified management tools.

### Secure Networking

Cisco Enterprise Networking helps protect against mobile security risks with a policy-based architecture, giving IT the power to centrally control client access both on and off premises, plus mobile security technologies.

### Application-Centric Infrastructure

Minimize complexity and reduce operating costs with Cisco ACI™, which uses a software-defined networking (SDN) architecture to create a next-generation automated data center that focuses on automation for optimal application deployment, performance and management.

### Optimize Your WAN

High-bandwidth traffic and applications can congest your WAN, compromising performance, speed and efficiency. Cisco's Intelligent WAN (IWAN) provides a complete solution:

+ Ready to use with any transport model (MPLS, Internet, hybrid) for added flexibility

+ Scalable, reliable and secure

## CDW GETS CISCO. WE ARE A GLOBAL PARTNER OF THE YEAR.

Our highly trained experts hold all available Cisco Master Specializations (Cloud Builder, Managed Services, Security and Unified Communications) and provide you with a fast, reliable network and a dedicated networking team that includes:

### PEOPLE WHO GET IT

**90+**

PROFESSIONALS

### MAKING IT WORK

As a Cisco Gold Certified Partner, CDW has access to Cisco's entire line of networking products, including Cisco Enterprise Network solutions. In addition, CDW is a member of Cisco's Early Field Trial program, giving us privileged access to and firsthand familiarity with the newest products before they hit the market. Plus, our Technology Experience Center (TEC) integrates the latest Cisco solutions to see how they fit your organization's unique networking needs.

### OUR STRENGTH IN NUMBERS

CDW's experts are industry certified and make sure we find the right Cisco networking technologies for you.

**4** MASTER CERTIFICATIONS

**58+** CCIE/CCDE

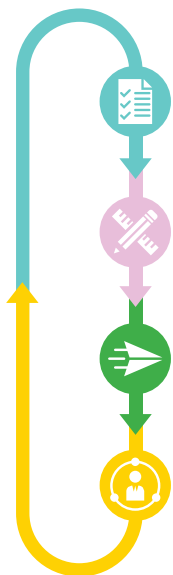

**215+** PROFESSIONAL LEVEL

**310+** ASSOCIATE LEVEL

## THE CDW APPROACH

Our strong Cisco partnership and extensive expertise allow us to provide you with rapid, custom-solution deployment along with managed services and full lifecycle support.

### ASSESS

We start by conducting an online assessment of your existing network infrastructure to gain a better understanding of current pain points and to identify areas of opportunity in performance and security.

### DESIGN

Our expert solution architects and engineers work with you to identify the best wireless and wired solutions, including site surveys and WAN optimization. They help you meet your organization's specific networking goals within your budget and timeline.

### DEPLOY

We can fully or partially implement your new networking solution to help ensure successful integration and optimization for future traffic and bandwidth growth demands.

### MANAGE

With our available management support for hosted network services and remote managed services, you'll have more time to explore next-generation solutions and focus on critical tasks.

## CERTIFICATIONS

Cisco Master Cloud Builder Specialization

Cisco Master Security Specialization

Cisco Master Unified Communications Specialization

Cisco Managed Services Master

Cisco – Application-Centric Infrastructure (ACI) Authorized Technology Provider (ATP) Systems Engineer

Cisco Connected Stadium™ Wi-Fi

## CASE STUDY

“The technology that we deployed had to be flexible to be able to handle the great demand and the smaller events as well.”

—Mark Feller  
VP of Technology  
Arizona Cardinals

### KEEPING FANS CONNECTED WITH WIRELESS NETWORKING.

Learn how the Arizona Cardinals, Cisco and CDW upgraded and secured the wireless network of a 63,400-seat, 1.7-million-square-foot stadium.
