

ADOBE® ACROBAT® 9 PRO EXTENDED

Deliver the richest, most engaging PDF communications anytime, anywhere

Top new features and enhancements

- Create interactive on-demand presentations with Adobe Presenter software.
- Combine multiple files in a single PDF Portfolio.
- Use professional templates for PDF Portfolios.
- Convert video to FLV for playback in PDF files.
- Enjoy support for 3D content and interactive PDF maps.

Acrobat 9 Pro Extended includes:

- Adobe LiveCycle Designer ES
- Adobe Presenter
- Adobe 3D Reviewer
- Adobe 3D Capture Utility for UNIX®

Create and share professional work with virtually anyone, anywhere. Unify the widest range of content—including documents, spreadsheets, e-mail, images, video, 3D, and maps—in a single compressed and organized PDF Portfolio. Collaborate through shared document reviews. Create interactive forms and collect data easily. Help protect and control sensitive information. Extend Acrobat functionality to users of Adobe Reader® software. And take advantage of the complete PDF feature set.

Create interactive, on-demand presentations

Use Adobe Presenter, included with Acrobat 9 Pro Extended software, to liven up your Microsoft PowerPoint slides. Add video, voice-over, demos, and interactive quizzes to keep your audience engaged and improve knowledge retention. Save your presentation as a PDF file so people can view it wherever they are, whenever it's convenient.

Unify the widest range of content

Assemble documents, drawings, e-mail, spreadsheets, and rich media—including video, audio, 3D, and maps—in a single compressed PDF Portfolio. Choose one of many professional templates to quickly integrate content, define navigation, incorporate branding, and add polish to your PDF Portfolio.

Easily share video in PDF files

Native support for Flash® technology can enable reliable, cross-platform sharing of video, animations, and applications in Acrobat and Adobe Reader. Convert a variety of video formats to FLV for playback in PDF files without needing a special media player.

Create and manage electronic forms

Convert Microsoft Word and Excel documents or scanned paper to PDF forms with automatic recognition of fillable fields. Use Adobe LiveCycle® Designer ES software, a professional form design tool included with Acrobat 9 Pro Extended, to create, customize, and automate dynamic XML forms. Use the Form Tracker to see when forms have been completed and who has completed them. Easily export data to a spreadsheet for analysis and reporting or into a database.

Help protect sensitive information

Control access to and use of PDF documents, assign digital rights, and maintain document integrity. Set document permissions to define whether a file can be printed or changed. Apply passwords to help restrict document access. Use redaction tools to permanently remove sensitive information. Digitally sign and certify documents to validate they came from a trusted source. Create and reuse document security policies that can be easily applied to new PDF files.

System requirements

Windows®

- 1.3GHz or faster processor
- Microsoft® Windows XP Home, Professional, or Tablet PC Edition with Service Pack 2 or 3 (32-bit and 64-bit); Windows Server® 2003 (with Service Pack 2 for 64-bit); or Windows Vista® Home Basic, Home Premium, Business, Ultimate, or Enterprise with or without Service Pack 1 (32-bit and 64-bit)
- Internet Explorer 6.0
- 512MB of RAM
- 2.35GB of available hard-disk space
- 1,024x768 screen resolution
- DVD-ROM drive
- Video hardware acceleration (optional)

Supported UNIX platforms for Adobe 3D Capture Utility (optional)

- Sun™ Solaris™ 2.8: UltraSPARC® processor
- IBM® AIX® 5.2: POWER4 or PowerPC® 604 processor
- SGI™ IRIX™ 6.5: RISC 5000 processor
- HP-UX 11.0: PA-RISC 2.0 processor
- UNIX Capture Utility: 200MB of available hard-disk space

Top reasons to buy Acrobat 9 Pro Extended

Include Adobe Reader users

Enable users of free Adobe Reader software to digitally sign documents, participate in shared document reviews, and save forms locally.* By extending Acrobat functionality to Reader users, virtually anyone can participate in the workflows you initiate.

Help protect your documents

Use passwords to help control access to PDF documents. Use permissions to restrict printing, copying, or altering. Save passwords and permissions as security policies that can be easily applied to new PDF files.

Permanently remove sensitive information

Use redaction tools to black out sensitive text, illustrations, or other information, permanently deleting the content from the PDF document. Inspect PDF documents for metadata, hidden layers, and other concealed information, and remove before distributing to others.

Enable virtually anyone to access design data

Convert virtually any 2D and 3D designs—including layers, dimensions, and metadata—to a single PDF file to share product data more easily and securely.

Manage and track document reviews

Gain the input you need through interactive document reviews that enable participants to see and build on each other's comments, which can be sorted by author, date, or page. Use the Form Tracker to monitor progress and participation.

Synchronize document views

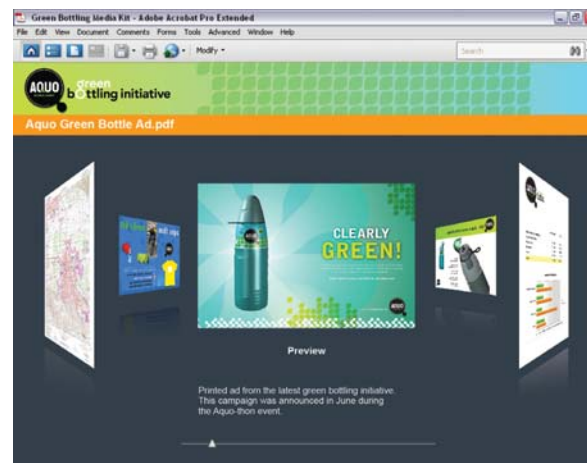

Ensure colleagues, clients, and partners are on the same page at the same time with the ability to co-navigate documents. To provide clarity and enhance discussion, e-mail a document and walk recipients through it in real time by controlling the exact page view they see.

Compare PDF documents

Automatically highlight the differences between two versions of a PDF document, including text and images, so you can quickly and easily identify what has changed.

View and interact with PDF maps

Search, measure, and mark up geospatially enabled PDF maps. Discover the longitude and latitude by placing your cursor over a location.

Choose one of many professional templates—or create your own—to quickly integrate content, define navigation, and add polish to your PDF Portfolios.

ADOBE® ACROBAT® 9 PRO

Protect documents and accelerate information exchange with PDF

Communicate and collaborate more effectively and securely. Unify a wide range of content in a single organized PDF Portfolio. Collaborate through electronic document reviews. Create and manage dynamic forms. And help protect sensitive information.

Top new features and enhancements

- Unify a wide range of content in a PDF Portfolio.
- Include FLV content in PDF files.
- Create and edit forms with the new Form Wizard.
- Take advantage of improved web capture and optical character recognition (OCR).
- Launch Acrobat faster.

Deliver professional documents

Easily organize content from a variety of sources—including documents, e-mail, images, spreadsheets, and web pages—in a single searchable PDF Portfolio, compressed for easy distribution. Use professionally designed templates that can be branded with your company logo and colors. Quickly integrate content, define navigation, and add polish to communicate clearly and effectively. Share information with anyone using free Adobe Reader® software.

Create and manage forms

Simplify the creation and completion of forms to efficiently analyze and use data. Convert Word and Excel documents or scanned paper to PDF forms with automatic recognition of fillable fields. Or use Adobe LiveCycle® Designer ES software, a professional form design tool included with Acrobat 9 Pro software*, to further customize and automate dynamic XML forms. Extend Acrobat functionality to Reader users so virtually anyone can participate in the workflows you initiate. Use the Form Tracker to see when forms have been completed and who has completed them. And easily export data to a spreadsheet for analysis and reporting.

Manage document reviews

Accelerate the exchange of ideas with colleagues, extended teams, and customers. Through easy-to-manage electronic document reviews, participants can see and build on other reviewers' comments as they are being made, so you can quickly gain the input and consensus you need to efficiently develop and complete work. Enable virtually anyone using free Adobe Reader software to participate in reviews, and use the Form Tracker to monitor progress and participation.†

Help protect sensitive information

Control access to and use of PDF documents, assign digital rights, and maintain document integrity. Set document permissions to define whether a file can be printed or changed. Apply passwords to help restrict document access. Use redaction tools to permanently remove sensitive information. Digitally sign and certify documents to validate they came from a trusted source. Create and reuse document security policies to precisely manage who can print, save, copy, or modify a document.

* Windows® only.

† For ad-hoc form distribution and data collection for up to 500 people.

System requirements

Windows

- 1.3GHz or faster processor

Top reasons to buy Acrobat 9 Pro

Deliver a compelling branded experience using PDF Portfolios

Bring multiple files together in a single organized and interactive PDF Portfolio. Use professionally designed templates that can be branded with your logo and include descriptions to guide recipients through the contents.

Help protect your documents

Use passwords to control access to PDF documents. Use permissions to restrict printing, copying, or altering. Save passwords and permissions as security policies that can be easily applied to new PDF files.

Easily create and manage electronic forms

Build dynamic forms, distribute and track forms and responses, and easily export data for analysis and reporting.

Manage and track electronic document reviews

Gain the input you need through interactive document reviews that enable participants to see and build on other reviewers' comments, which can be sorted by author, date, or page. Use the Form Tracker to monitor progress and participation.

Include Adobe Reader users

Enable users of free Adobe Reader software to digitally sign documents, participate in shared document reviews, and save forms locally.† By extending Acrobat functionality to Reader users, virtually anyone can participate in the workflows you initiate.

Synchronize document views

Provide clarity and enhance discussion by e-mailing a PDF document and walking recipients through it in real time by controlling the exact page view they see.

Remove sensitive information

Use redaction tools to black out sensitive text, illustrations, or other information, permanently deleting the content from the PDF document. Inspect PDF documents for metadata, hidden layers, and other concealed information, and remove before distributing to others.

Compare PDF documents

Automatically highlight the differences between two versions of a PDF document, including text and images, so you can quickly and easily identify what has changed.

Improve print processes

Help control costs and reduce errors with automated output controls to preview, preflight, correct, and prepare PDF files for high-end print production and digital publishing.

Create and validate accessible PDF documents

Ensure your PDF documents are optimized for people with disabilities. Quickly evaluate, correct, and automatically tag PDF documents for optimized accessibility and reflow.

Combine multiple files in a searchable PDF Portfolio, compressed for easy distribution. Brand it with your logo and include descriptions to guide recipients through the contents.

ADOBE® ACROBAT® 9 STANDARD

Reliably create and distribute PDF documents and forms

Top new features and enhancements

- Easily convert Microsoft Word and Excel documents or scanned paper to PDF forms.
- Enable virtually anyone using free Adobe Reader software to fill in and save PDF forms locally.*
- Easily convert web pages to PDF files to print, archive, mark up, or share with improved web capture.
- Take advantage of new optical character recognition (OCR) technology and support for a broader range of scanners, which improves the searchability and appearance of scanned PDF documents.
- Launch Acrobat faster.

Create and reliably share PDF documents. Combine files from multiple applications in a single PDF file. Easily create fillable PDF forms to collect data electronically. And apply basic document security features.

Reliably share documents

Create and distribute PDF files that preserve the formatting of the originals. Combine documents, e-mail, images, spreadsheets, and web pages in a single PDF file. Quickly organize content and add polish to communicate clearly and effectively. Share information with virtually anyone using free Adobe Reader® software.

Quickly create forms

Use the new Form Wizard to create forms from paper or electronic documents. Scan or convert existing documents to PDF forms that can be filled in electronically, ensuring the data you receive is accurate and useful. Use the Form Tracker to see when forms have been completed and who has completed them. Easily export form data to a spreadsheet for analysis and reporting.

Easily exchange feedback

Efficiently review documents and provide input with familiar commenting tools. Quickly gain the input you need to efficiently develop and complete work. With easy-to-manage electronic reviews, participants can see and build on other reviewers' comments as they are being made.

Help protect sensitive information

Control access to PDF files with document passwords and permissions. Set document permissions to define whether a file can be printed or changed. Apply passwords to help restrict document access. Digitally sign and certify documents to validate they came from a trusted source.

* For ad-hoc form distribution and data collection for up to 500 people.

Top reasons to buy Acrobat 9 Standard

Create and reliably share PDF documents

Easily convert any document that prints to PDF to preserve formatting and help ensure document integrity.

Combine content in a single PDF file

Assemble documents, spreadsheets, presentations, e-mail, and web pages in a single compressed PDF file to easily share with others.

Help protect your documents

Use passwords to control access to PDF documents. Use permissions to restrict printing, copying, or altering.

Easily create and track PDF forms

Convert Microsoft Word and Excel documents or scanned paper to PDF forms. Form fields are automatically recognized and converted to fillable fields. Use the Form Tracker to see when forms have been completed and who has completed them. Easily export data to a spreadsheet for analysis and reporting.

Easily review documents

Use familiar commenting tools—such as sticky notes, a highlighter, and stamps—to provide feedback. Comments can be sorted by author, date, or page.

Sign documents digitally

Use digital signatures to approve documents, which helps eliminate the costly and time-consuming practice of printing, signing, and faxing.

Convert paper documents to PDF

Easily scan a paper document and convert it to a searchable PDF file.

Convert from PDF to Microsoft Word

Save PDF files as Word documents, retaining the layout, fonts, formatting, and tables, so you can easily reuse content.

Archive documents and e-mail

Save documents and e-mail in PDF/A, the standard for archiving, to simplify search and retrieval in the future.

Easily create PDF forms

With fillable PDF forms, you can collect information electronically to eliminate manual data re-entry and reduce costly errors. Enable virtually anyone using free Adobe Reader software to fill in and save PDF forms locally.*
