

# HP 3PAR Get Virtual Guarantee

## HP 3PAR Get Virtual Guarantee

### Achieve 2x more virtual machine density per server

As the tier 1 storage benchmark for virtualization and cloud computing, HP 3PAR Storage maximizes the value of your server virtualization deployment.

With HP 3PAR Storage, you get storage built for virtualization and the cloud that doubles efficiency in virtualized environments and reduces performance bottlenecks. These advantages allow you to place more VMs on the physical servers in your existing VMware vSphere environment without compromising performance or reliability. This higher VM density means greater consolidation and accelerated server virtualization ROI. In fact, HP is so confident that you can **double VM density** on your physical servers with HP 3PAR Storage, **HP guarantees it\***.

# HP 3PAR Get Thin Guarantee

## HP 3PAR Get Thin Guarantee

### Reduce storage capacity requirements by 50% or more

HP 3PAR Storage sets the gold standard for “thin” storage. Our built-in thin technologies offer the most comprehensive thin solution in the industry—allowing you to start thin, get thin, and stay thin—**guaranteed\***.

With HP 3PAR Storage, you can meet existing data and application requirements with **50% less storage capacity** and **no performance tradeoffs**. Lower capacity requirements mean fewer disks to purchase up-front, less equipment to house, power, and cool, and less storage to manage—which translates into CAPEX and OPEX savings. 3PAR has already helped hundreds of customers shrink their storage requirements in half, and now **HP guarantees it\***.
