

CDW helps customers maximize their software investment through our strong Microsoft relationship, licensing and solution expertise, and personal customer service. With deep implementation experience in Microsoft Server and Security, Monitoring and Management, Information Worker and Unified Communications experience, CDW is the right partner for delivering Microsoft solutions.

CDW offers award-winning national services around all four of our core solution areas, helping our customers implement their Microsoft solutions and achieve the full power of their Microsoft investment.

Our four Microsoft Gold-Certified solution areas are:

Microsoft Information Worker Solutions

The CDW Information Worker Solutions team has highly-skilled consultants delivering smart solutions including Microsoft SharePoint Collaboration, Business Intelligence, Business Process Automation, Enterprise Search and Portal solutions. With the Microsoft Information Worker suite of tools, CDW assists organizations through an experience-driven, direct and focused approach that positions a solution for not only short-term impact but also for long-term success.

Microsoft Unified Communications Solutions

CDW has a dedicated Unified Communications team that delivers people-centric, intuitive and efficient solutions into the backend server environment and across the applications and devices that people use every day.

CDW is strategically positioned to provide end-to-end services for Exchange and Office Communications Server. We've built a team of certified consultants who have earned Microsoft specializations in delivering messaging, mobility, instant messaging, presence, conferencing and Voice over IP solutions.

Microsoft Server and Security Solutions

CDW offers a comprehensive suite of Server and Security solutions to help power and secure your entire enterprise. With a diverse range of skills and experience, our team can deliver cutting-edge solutions like server virtualization, SQL database implementations, directory services, Forefront security, identity management and network access management solutions.

Microsoft Monitoring and Management Solutions

CDW's Monitoring and Management team helps customers achieve an optimized desktop environment by providing Microsoft solutions around Windows Client, application virtualization and desktop optimization. CDW is a thought leader around Windows Vista and is a leading desktop deployment partner in the world. With Microsoft specializations in Windows Desktop Deployment and System Management, CDW's team is uniquely qualified to deliver these solutions.

With a strong relationship with Microsoft, CDW has earned the Microsoft Gold Partner title with seven competencies and 16 specializations — one of the few partners with this level of Microsoft designation. CDW has been recognized two years in a row with the Microsoft Operational Excellence Award for our consistency in contract processing. Also, CDW works with Microsoft to stay on the cutting edge of their technologies by participating in early adopter programs, advisory committees and launch events throughout the year.

CDW has a corps of over 100 consultants to offer the following national services with regional resources across all of our solutions. These solutions include:

- **Deployment Planning Services**
- **Health Checks**
- **Strategy Briefings**
- **Proof of Concept Engagements**
- **Pilot Implementations**
- **Solution Planning and Design**
- **Migrations**
- **Full-Production Deployments**

CDW completes your projects efficiently with higher quality using our proven engagement methodology. We leverage our deep technical expertise to ensure a successful engagement that directly affects your organization's IT strength and your bottom line.

With CDW and our expertise in product, services and licensing, you can maximize your software investment by deploying what you own and ensuring you are getting the total benefit out of your solution purchase. We strive to ensure our customers can lower their total cost of ownership and enjoy all the benefits of their Microsoft solutions.
