

THE RIGHT TOOLS. THE RIGHT TEAM.
GET THE WINNING EDGE.

You already know Microsoft can deliver collaboration and communication tools to help you succeed. Now, Microsoft and CDW offer them as Online Services — fully hosted in world-class data centers from Microsoft. Your organization will be supported by a high-performance team who can keep your software up-to-date and optimized, helping you realize value from your technology investments even faster. When you work with Microsoft and CDW, you'll have the winning combination you need to accelerate your business.

Microsoft Online Services include Microsoft Exchange Online, Microsoft SharePoint Online, Microsoft Live Meeting and Microsoft Office Communications Online to Provide:

Streamlined communications. Your users can work with the same rich clients they already know and use—all within an integrated experience, from virtually any device, in almost any location.

Simplified management. Provide the tools your organization needs without requiring ongoing upgrades or installations. Microsoft Online Services put our IT resources to work for you.

Business-class security and reliability. Work with confidence knowing that these Online Services from Microsoft run on a network of world-class data centers protected by multiple layers of security and operational best practices—all while providing 99/99% uptime.

CDW will offer assistance with:

Procuring Microsoft Online Services.

We can provide valuable information and assist you throughout the sales process.

Deployment and Migration. Making the transition to a hosted service is even easier with a partner to help with implementation and the migration of your users.

Customization and Integration. Being able to customize a solution for your organization that integrates hosted services with existing on-premise applications is a unique advantage of working with CDW and Microsoft.

Managed Services. We can also help you provide managed services including, but not limited to:

- End-user training and support
- User management
- IT Pro Support
- Business Consulting
