

IT'S WHO YOU KNOW:

MOBILEIRON + CDW MOBILE DEVICE MANAGEMENT

WHEN IT COMES TO MOBILE DEVICE MANAGEMENT, IT'S NOT JUST WHAT YOU KNOW. IT'S WHO YOU KNOW.

That's why we partner with industry leaders like MobileIron. Their cloud and on-premises MDM solutions help you control your entire mobile fleet without restricting your users. And with CDW Total Mobility Management, we offer you the services and the expertise to make implementation of MobileIron's solutions painless and effective. Together, we can help you simplify your mobility strategy, protecting your data without hindering worker productivity.

MOBILEIRON GETS MOBILE DEVICE MANAGEMENT.

MobileIron has been named a leader in Gartner's 2013 Magic Quadrant for Mobile Device Management.

SECURITY WITHOUT SACRIFICE

MobileIron's multilayered MDM innovations help secure the enterprise persona without hindering the device experience. For example, technologies like MobileIron Docs@Work and Sentry help protect and preserve the experience of native email clients, eliminating the need to use a third-party app. Your organization's sensitive data will be better protected, and your mobile workers will be able to enjoy the functionality they expect.

CUTTING-EDGE SOLUTIONS

As a pioneer in mobile IT, MobileIron is constantly developing new solutions to meet evolving mobility challenges. After all, they were the first to market with:

- Multi-OS MDM
- Dynamic Application Management (DAM)
- Mobile Application Management (MAM)
- BYOD privacy controls
- Secure app containers
- Secure app tunneling

USER-ORIENTED INNOVATION

MobileIron is dedicated to understanding the needs of today's mobile users and frequently conducts polls, like the MobileIron Trust Gap Survey, to glean such insights. As a result, technologies like their Layered Mobile Security Model are designed not only with the organization but with the user in mind too, protecting both organizational security and end-user privacy.

CDW GETS HOW TO MAKE IT WORK.

Take a strategic approach to MDM with CDW Total Mobility Management.

CDW Total Mobility Management combines our expertise, our partners and our solutions to enable your IT department to integrate, control and simplify all aspects of mobility management. Our solution architects work with your team to understand your infrastructure, connectivity requirements and security needs and chart a course of action. Here's how it works:

1. PLAN

We can help you define a strategy, roadmap or policy, and ensure you have the right network and security.

2. ENABLE

CDW's Mobility Management Portal enables cross-carrier device selection and provisioning.

3. PROTECT

We can help you protect your mobile environment with centralized management tools.

4. SUPPORT

We offer 24x7 help desk support for users and can also provide remote MDM administrative support for IT.

5. EMPOWER

We can assist with customized app development, collaboration and a branded employee app store.

OUR MOBILITY EXPERTISE.

THE PEOPLE

With thousands of MDM installations under our belts, our team can assist you at every phase of your project. Along with a dedicated account manager, CDW offers you the MDM expertise of:

- 100+ security engineers
- 50+ security solution architects
- 30 certified mobility and security specialists
- Professional Services:
500 engineers and project managers
- Managed Services:
150 engineers and project managers

THE PRODUCTS

We are one of only two MobileIron resellers authorized to carry their range of mobility products. Our solution architects receive regular training on them to make sure you get the most advanced solutions for your needs. We also partner with other leading mobility vendors to offer you more customized options than any individual vendor or carrier. That means that your solutions will be custom-built for your needs, not put together from someone else's blueprints. It's no wonder we've sold thousands of MDM licenses.

THE PLAN

Along with CDW Total Mobility Management, we can support you and your IT staff in every phase of your MDM investment with services like:

- **CDW Mobility Management Portal:** Helps you manage security, policy and compliance across your mobile user base
- **Full lifecycle support:** From assessment and solution design to implementation and ongoing support
- **Activation services:** For mobile hardware and software
- **24x7 help desk:** Live and self-service support for end users

TAKE IT FROM US.

ANDREA BRADSHAW
GENERAL MANAGER OF
MOBILITY SOLUTIONS AT CDW

“CDW understands that organizations need to integrate mobile IT into a robust infrastructure in order to realize mobility’s full promise.

We are introducing CDW's expanded Total Mobility Management portfolio to help them lift that load by leveraging our years of experience providing wireless communications and building local and wide area networks, along with our heritage of partnering with the industry's leaders and innovators. Plus, our new Mobility Management Portal will enable customers to access most of the services they require easily and in real time, to simplify their day-to-day operations.”
