

Lease iPad. Get up to 28% savings¹.

Want the latest technology while maximizing your existing investments?

Qualified businesses can benefit from leasing iPad through IBM Global Financing and save up to 28% versus paying cash. All iPad models are eligible for leasing and you can add software and warranty on a single invoice.

The potential benefits of leasing, include:

- Flexible payment structure²
- Eliminate large up-front capital outlays
- Get the latest gear in your employee's hands to be productive
- Environmentally responsible re-sale or disposal of obsolete assets

IBM Global Financing will also provide cash in hand for existing iPads traded in, up to \$176 per device³.

Please contact your CDW representative to receive a quote, and to learn more about how leasing can work for your company.

1. Financing Pricing Rates are valid until November 30, 2017. Final pricing subject to credit approval. Taxes and environmental fees are not included in the pricing rates. Offer valid for businesses in Canada and in Canadian dollars.
2. Minimum lease size of \$5,000 before taxes. Subject to end of term conditions for fair market value of lease: return equipment, purchase equipment at then-current market value, extend lease. Savings calculations based on 24 month term and investment grade customers only.
3. Quoted buyback price based on model of machine received at IBM's remanufacturing facility at 4175 14th Avenue, Markham, ON by Nov 30, 2017, in good working condition with no missing or damaged parts. Estimates provided here are based on iPad Air 128 GB Wifi/Cell.
