CDW Canada Ranks Third on CDN's Top 100 Solution Providers List

Leading provider of technology solutions moves up a spot on the list

Etobicoke, ON – May 17, 2012 – CDW Canada, a leading provider of technology solutions for Canadian organizations in the public and private sectors, today announced it has ranked number three on the 2011 Top 100 Solution Providers list for Computer Dealer News (CDN).

CDW Canada has quickly climbed the coveted list. In 2010, it placed in the top five for the first time, coming in at spot number four.

"When CDW Canada entered the Canadian market in 2005, CDN predicted it would not be long before it would receive a top five award at the Top 100 Solution Providers event. Last year CDW Canada achieved that goal. This year, CDW Canada grew again and was presented with the number three Solution Provider of the Year award," says Paolo Del Nibletto, Editor, Computer Dealer News.

"We are pleased to rank third on this year's CDN Top 100 Solution Providers list," says Mary Ann Yule, Vice President and General Manager, CDW Canada. "Our recognition as a top solutions provider in Canada is a testament of the value we deliver to our customers and is a result of the hard work and dedication of our coworkers, who always strive to be the best at what they do and what they deliver. Our team of account managers and technology specialists are some of the best in the industry and through them our customers receive expert advice on products and technology solutions that suit every requirement to help accelerate their business. Everything we do revolves around the customer."
