

RIVERBED and CDW

**and NOW YOUR NETWORK
ISN'T SO OVERWORKED.**

When left unmanaged, increases in bandwidth-intensive applications, cloud computing, virtualization and remote networking will inevitably lead to network traffic jams. Riverbed offers WAN and application optimization solutions to keep work flowing, and as a Riverbed Elite Partner, we have the expertise to make those solutions work for you. Together, we'll help you alleviate data bottlenecks and increase reliability with unparalleled visibility and control of IT resources across your hybrid enterprise.

RIVERBED GETS NETWORK OPTIMIZATION.

THE RIVERBED APPLICATION PERFORMANCE PLATFORM

Riverbed offers organizations a comprehensive platform that delivers applications and data to employees reliably and efficiently – wherever they are. With Riverbed solutions, you'll get:

- + Click-to-disk visibility
- + Exceptional application optimization
- + Application-centric network services
- + Branch convergence to data center

OPTIMIZED FOR THE HYBRID ERA

Improve application performance up to 100x, reduce IT costs and recover branch operations instantly – all while increasing agility with the full Riverbed Application Performance Platform across modern and complex network architectures. It also offers:

- + Application-specific visibility and control that recognizes, analyzes and enhances the performance of an application
- + Deployment options that include appliances, software and cloud instances that fit the changing environments of where and how applications are hosted
- + Acceleration and delivery optimizations that allow you to centralize and converge IT infrastructure for lower total cost of ownership
- + Multilevel security, including application-layer protection

A POWERFUL PORTFOLIO

Riverbed boasts a deep and dynamic portfolio of network infrastructure solutions.

- + **SteelHead for WAN Optimization**
Accelerated delivery of any application across the hybrid WAN that delivers better visibility and user experience
- + **SteelCentral for Performance Management and Control**
A command center for application performance that combines user experience, infrastructure, application and network monitoring into a single holistic view
- + **SteelFusion for Branch Converged Infrastructure**
Instant provisioning and recovery of all branch data without the need for servers, storage or backup

Leader of the Pack

Riverbed has been named a leader in Gartner's 2015 Magic Quadrant for WAN Optimization – for the eighth consecutive year. It was also recognized as a leader in Network Performance Monitoring and Diagnostics (NPM), Magic Quadrant, in 2015.*

CDW GETS RIVERBED. WE'RE AN ELITE PARTNER.

Our team works closely with the professionals at Riverbed to offer you access to the entire breadth of their portfolio, and our deep understanding of their offerings has earned us their highest recognition. With their powerful WAN optimization tools and guidance from our industry-certified experts, we can help you find the right solution to meet your organization's networking needs.

THE CDW APPROACH

At CDW, we offer end-to-end services to support you as you look to implement a robust networking solution. We can start by assessing your current environment by taking an inventory of your network and performing a QoS assessment.

After identifying any problems, we can determine the right strategies to solve them. With a plan mapped out, our team can configure your solution and work with you to smoothly implement it.

Once your WAN optimization solution is in place, we offer a range of services to support your team and keep it functioning. Our remote managed services can relieve your IT staff from the burdens of management.

And with our hosting and managed services, we can house your infrastructure in one of our secure data centers while our engineering staff manages it 24/7/365.

AWARDS AND CERTIFICATIONS

Riverbed Elite Partner – 2015
Riverbed Portfolio Partner of the Year for North America – 2014

Riverbed Performance Management Partner of the Year for the Americas – 2013

CASE STUDY

“What’s really beautiful is the difference between something being disruptive, and everybody stops working, versus now we see that there’s a failure, and we fix it in the background.”

– **Tim Soto**
Infrastructure Manager, Lanthrop & Gage

AVOIDING DOWNTIME WITH IMPROVED NETWORK RELIABILITY

Learn more about how one law firm used solutions from Riverbed to boost both network performance and end-user productivity. With disruptive failovers eliminated, attorney access to critical applications is ensured and work continues seamlessly over the WAN.
