The Internet of Things is no longer a futuristic vision but a complex, growing network—a lot like ourselves. Each day, many more facets of our lives—from business to medicine, from our homes to government, and everything in between—continue to connect in new ways. The technology that connects it all also continues to evolve, incorporating high-performing solutions to address age-old challenges.

IoT: ANATOMY OF OUR WORLD

The estimated economic impact by 2025 of all IoT equipment for 10 percent of the global economy.

$11.1 TRILLION

The estimated amount manufacturers will invest in IoT solutions in 2020, up from $29 billion in 2015.

$70 BILLION
