

# NOW IS THE TIME TO IMPLEMENT A VIDEO CONFERENCING SOLUTION

Video conferencing is getting a lot of buzz lately due to the recent cost decrease, making it tangible for many law firms. It's easy to see why it's desirable. Without video conferencing, traveling could cost law firms hundreds of thousands per year. It also allows attorneys to perform depositions and testimonies and seamlessly communicate between offices.

## 5 REASONS TO IMPLEMENT A VIDEO CONFERENCING SOLUTION:

1. The latest collaboration technologies offer more capabilities
2. The initial setup of conference room components goes more smoothly
3. Initiating conferencing sessions is easier
4. Travel costs can be reduced
5. There's a productivity bump

CDW has dedicated Legal account managers, unified communications experts and video solution architects that are ready to help you find, deploy and manage the right video conferencing solution for your law firm.

## 53 hours, 24 minutes.

The average time participants spend preparing for, traveling to and attending an in-person meeting with five people – more than three times the amount required for an audio or video conference.
