## No One Gets Microsoft Like We Do

CDW is uniquely qualified to design IT solutions that help remove complexity and unnecessary costs from your organization. Our experts become part of your team providing the support you need, when and where you need it. We help you navigate Microsoft's robust software offerings, from virtualization and desktop management to networking and collaboration solutions. We get Microsoft. And we can share our knowledge with you, so your organization can spend less time managing software and more time putting it to work.

### National Scale with Local Capabilities

CDW has the Microsoft expertise you need — wherever you happen to need it. We offer national scale coverage and local capabilities if you need a specialist to drop by your office and answer questions, make recommendations or talk about the latest trends and challenges. So, no matter where you are, we're there to bring you our expertise.
